Frieda Elizabeth Hetrick Ried compiled most of the family history contained in this document during nearly forty years of research.

Early in her research effort, she traveled to Northumberland Co., Pennsylvania where her ancestors lived before they settled in Sandusky Co., Ohio. While in Pennsylvania, she met Jack K. Hetrick, a renowned Hetrick Family researcher who had traced the family back to Germany in the 1600's.

Although her original intent was to compile information about the descendants of Peter Hetrick (1806-1879), her research efforts soon included all the Hetrick families who had settled in Sandusky Co., Ohio. In addition to direct correspondence via telephone and letters with hundreds of family members, she spent untold hours in local libraries, court houses, and churches. Copy machines were not available at the time; so much of her research was documented in hand written records.

In 1995, she and **Milton Hetrick, Jr.** began collaborating. They began transferring her years of research into a genealogy database. In 1997, the "First

Edition" of the family history was published containing approximately 3000 names of individuals linked to the original Sandusky Co., Ohio Hetrick pioneer families. Research continued after 1997 and the "Second Edition" contains about 8000 names.

Milt Jr's interest in genealogy began as a youth on the family farm in Rice Twp. He remembers his grandfather had a few unique feed sacks that were fabricated from a white canvas material (instead of the typical brown burlap) and they had the name "David Hetrick" on them. Numerous times he inquired about "David" as he was growing up. His grandfather would patiently re-explain, "David was my father," and "Peter was David's father."

He still remembers his disbelief when told that he was not related to two of his best friends and classmates at Lindsey Elementary School: Larry Hetrick & Karen Hetrick. Before going off to college, he sat down with his grandmother, Ida, and had her write out the family tree as she could remember it. Those notes and the family bible were very useful later in life when he too began searching for his roots.

Milt Jr. was elated to be able to work with Frieda and eventually understand his kinship with the four other Hetricks in his 1960 Fremont Ross High graduating class: Karen (4th cousin); Larry (5th cousin); Patrick (3rd cousin) and Sandra (Half 2nd cousin once removed). In retrospect, he now knows that he and at least 25 of his fellow classmates who are identified in this document have common ancestors.

He acknowledges that without today's genealogy software, word processors, and the Internet, this family history document would not have been possible.
